

FINAL MOCKUP NOTES - great job!

- Looking good! Good basic layout, just adding stylistic changes
 - Thinking about image size, text, color, etc
- Good title font, really like the storybook font on the homepage within the book, maybe consider incorporating that elsewhere in some of the subpages
- On the subpages one column with text on left and one with images and captions on right
- Navigation on home page is long bar on the bottom
 - On subpages maybe have a hamburger, whatever is easiest or you think works best
